Technical Skills:

- HTML
- CSS
- JavaScript
- APIs (Third party and server side)
- Node.js
- VS Code
- Terminal
- GitHub repositories

Work examples:

1. Great Date: a two page website that offers the user new ideas for activities, entertainment, and restaurants in their area. HTML and CSS using multiple third party APIs as well as dynamic JS tapping into Google Places API and SeatGeek API for data. Created as part of a 4 person team over 2 weeks.
